Itinerary (Jan 12–15, 2026) — 2-Day Demo Plan

Overview

Arrival: Jan 12, 2026 — Arrival day. Evening: brief meeting or confirm appointments. Two full demo days on Jan 13 and Jan 14. Jan 15 — buffer day and departure.

Day 1 — Jan 13, 2026 (Nanshan & Futian)

10:00 — DINSTAR (Vanke Cloud City, Nanshan). Demo: 32/64-channel GSM VoIP gateways, SIMBank. Ask for demo paperwork.■13:00 — DBL Technology (Futian). Demo: VoIP gateways, export sample.■16:00 — NICEUC (Nanshan). Demo: IP PBX & hybrid gateways. End of day: compare offers and request proforma invoices for demo export.

Day 2 — Jan 14, 2026 (Longgang & Luohu)

10:00 — Ejointech (Longgang). Demo: SIM Bank / SIM Pool live test; strong chance for loan/demo unit for export.■14:30 — China Skyline (Luohu). Demo: GoIP gateways, SIMBANK. Request Proforma Invoice + Packing List marked 'Demo Evaluation Unit - No Commercial Value'.■Evening: optional Huaqiangbei (SEG Plaza) for accessories.

Jan 15 — Departure / Buffer Day

Use this day for follow-up visits, final paperwork signing, or customs export if required. Confirm demo-unit paperwork (proforma invoice, packing list, company stamp) before leaving China.

Demo Request Template (Copy & Paste)

Subject: Factory Visit & Demo Request – [Your Name] – Shenzhen Visit■■Hello,■■My name is [YOUR NAME]. I will be visiting Shenzhen on Jan 12–15, 2026 and would like to schedule a factory/office visit to evaluate the following products:■■- [Product Model 1]■■- [Product Model 2]■■I would like to:■■1) Visit your office/factory■■2) Receive a demo/evaluation unit to take back to my country for testing■■3) Obtain a Proforma Invoice + Packing List marked:■■'Demo Evaluation Unit – No Commercial Value – Not for Resale'■■Please confirm availability on these dates and provide contact details for the person who will receive me.■■Thank you.■■Best regards,■[Your Name]■[Your Country]■[Phone/WhatsApp]

Customs & Export Checklist — Taking a Demo Unit Home

Before you leave the vendor site, confirm you have the following:

1. Get a stamped Proforma Invoice from the vendor labelled: 'Demo Evaluation Unit – No Commercial Value – Not for Resale'.
2. Ensure the Proforma includes: serial number(s), model, weight, and list of accessories (power adapter, cables).
3. Ask the vendor for a packing list and their business card or stamp on the invoice.
4. Carry the vendor email thread and a printed copy of the Proforma Invoice + Packing List.
5. Bring only a small number of test SIMs (1–3). Keep SIMs separate from the main hardware during customs inspection.
6. At Chinese exit customs: if asked, present the invoice and state it's a demo unit for evaluation.
7. At arrival customs in your country: have the same paperwork ready; duties (if any) are typically minor—show the 'No commercial value' note.
8. Do NOT operate the demo to terminate large volumes of traffic until you confirm local telecom licenses and compliance.

What to Bring & Practical Tips

Essentials to carry:

- Passport (carry at all times during factory visits).
- Business card (helpful for reception and vendor staff).
- Laptop (Windows preferred), power adapter, USB stick.
- 1–3 local test SIMs (registered), clearly labelled.
- Copies/screenshots of email confirmations & proforma invoices.
- Comfortable shoes; Shenzhen factories often require walking short distances.
- WeChat and WhatsApp installed for quick contact (vendors often use WeChat).
- Ask for a stamped company chop (seal) on any proforma invoice — many Chinese customs accept this.

Final Notes & Quick Contacts Reminder

Top companies to prioritize for demo export: Ejointech, Dinstar, China Skyline, DBL, NICEUC.■■■When scheduling, always include your exact arrival/departure dates and request a stamped Proforma + Packing List.■■■If you would like, I can also prepare individual pre-filled emails for each company, a Google-Maps link pack, or a printable one-page visit card for customs.
